

ASTFFL6

Prepare for flood damage emergencies

Overview

This standard is about preparing to deal with flood damage emergencies. It includes confirming the availability of tools and equipment, relevant documentation and consumables required for the work.

ASTFFL6

Prepare for flood damage emergencies

Performance criteria

Confirm the availability and operation of tools and equipment needed for flood emergencies

You must be able to:

- P1 confirm that you have the correct **tools** and **equipment** for the type of flood emergency you are likely to encounter
- P2 confirm that you are authorised to use the tools and equipment available to you; and
- P3 confirm that the tools and equipment available to you are safe to use and working properly

Confirm the availability of relevant documents

You must be able to:

- P4 confirm that the relevant **documents** are available to you when required and that they are current
- P5 confirm that you have sufficient copies of the relevant documents for all parties

Confirm the availability of consumables

You must be able to:

- P6 confirm that you have the correct **consumables** and sufficient quantity for the type of flood emergency you are likely to encounter; and
- P7 confirm that the consumables for the type of flood emergency you are likely to encounter are **serviceable**
