

ASTFM310

Ensure health and safety requirements are met in your area of responsibility

Overview

This unit is imported from MSC (Unit E6)

This unit is for first-line managers/supervisors at work in the FM environment. It is concerned with managing the overall health and safety procedures in your area of responsibility. It is intended to go beyond meeting health and safety legislation and move towards a situation where health and safety considerations are firmly embedded in the planning and decision making processes and the 'culture' of your area of responsibility.

The 'area of responsibility' may be, for example, a branch or department or functional area or an operating site within an organisation.
