## Carry out direct sales activities in a contact centre

---

### Overview

#### What this standard is about

Many contact centres carry out direct sales activities. Some sales are the result of incoming contacts from customers. Other sales are the result of outgoing contacts made from the contact centre. Some sales opportunities result from general information and support exchanges with customers who then develop an interest in additional services or products. In any of these situations you must be familiar with the services and/or products that can be offered and with sales techniques that enable you to make the most of sales opportunities that arise.
