

CFACC39

Manage incidents referred to a contact centre

Overview

What this standard is about

Some contact centres have specific responsibilities for dealing with emergency contacts. This involves contacts in which the person expects and/or demands the contact centre to be immediately responsive. Each organisation has well defined procedures designed to identify what is needed as quickly and accurately as possible. These procedures need to be followed closely as they have been developed in close consultation with those responding to incident requests and customers. Managing incidents involves following appropriate procedures, selecting and deploying resources using the correct communication channels and providing guidance to colleagues on incident handling and management.

This standard is about your role in handling incidents and taking responsibility for deploying available resources using appropriate communication systems. The role also involves supporting colleagues by providing guidance.

Manage incidents referred to a contact centre

Performance criteria

You must be able to:

Identify and use organisational procedures to manage incidents

- P1 Assess incoming incidents to identify organisational procedures that address the contact needs
- P2 Respond to incoming contacts relating to incidence in accordance with organisational guidelines
- P3 Ensure that the correct legislation and organisational policies have been followed to manage the incident reported in the contact

Use appropriate communication channels to deploy resources to deal with reported incidents

- P4 Select resources that are immediately available to deal with an incident reported by a contact
- P5 Select a method to communicate with the resources you have selected to deal with the incident
- P6 Communicate with resources you wish to deploy to deal with an incident using the most appropriate communication media
- P7 Specify the response needed from resources that have been deployed to deal with an incident
- P8 Monitor the management of the incident by deployed resources and provide any additional support needed
- P9 Deal with queries and/or complaints regarding the handling of contacts about incidents that must be managed

Provide guidance to colleagues on incident management

- P10 Identify areas in which colleagues need support and guidance in incident management
- P11 Agree with colleagues buddying and coaching activities that will provide them with support
- P12 Carry out buddying or coaching activities with colleagues to support their development in handling incident management
- P13 Review support work with colleagues handling contacts about incident management
- P14 Ensure that review of incident management results in actions to improve team performance
