### Overview

This Standard is part of the Customer Service Theme of Impression and Image. This Theme covers the Customer Service behaviours and processes that have most impact on the way your customer sees you and your organisation. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

Many organisations interact with their customers through a variety of social media platforms. The evolution of Internet-based communication channels has led to customers choosing that medium for a wide range of communication with organisations providing services or products. Customers form expectations through the way the organisation presents itself in web-based communications and by the way it responds to customers and potential customers.

Expectations are also affected by the conventions and functions of a particular platform and by other customers and network contacts who act as influencers. The reputation of your organisation can be directly affected by social media interactions and in particular the way you deal with negative reactions and problems which find their way into a public arena. This Standard is about being prepared to deal effectively with customer contact through social media platforms and using social media to satisfy customers by meeting their expectations. Do not choose this Standard if your organisation does not expect you to make routine and regular use of social media for customer service.
