# Maintain and develop a healthy and safe customer service environment

---

### Overview

This Standard is part of the Customer Service Theme of Delivery. This Theme covers Customer Service behaviours and processes that have most effect on the customer experience during Customer Service delivery. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

Health and safety is important in all areas of work, and customer service is no exception. To provide high levels of customer service it is also important to provide an environment that enables and encourages staff to work effectively but safely for themselves and for customers. This Standard is about managing the delivery of services or products in a way that is safe for customers and colleagues.
