Plan, organise and control customer service operations

Overview

This Standard is part of the Customer Service Theme of Delivery. This Theme covers Customer Service behaviours and processes that have most effect on the customer experience during Customer Service delivery. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

Delivering effective customer service is key to winning and maintaining customer loyalty. This requires careful planning and organisation, followed by close monitoring and control of customer service operations. When problems occur, you must be able to deal with these problems in a way that leaves your customer with a positive impression of your organisation. This Standard is about managing the delivery of services to the customer.
