## Deal with customers across a language divide

---

### Overview

This Standard is part of the Customer Service Theme of Delivery. This Theme covers Customer Service behaviours and processes that have most effect on the customer experience during Customer Service delivery. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

Customer service is frequently delivered across a language divide. Customer service centres may be located in one country but deal mainly with another. In a multi-cultural society many customers may have a different first language from those who are delivering customer service. This language divide can present a challenge to those who deliver customer service. This Standard is about preparing to deliver customer service across a language divide and seeing through that delivery. The Standard covers the steps that are needed to deal with customers with different language preferences without having full access to your customer's first language. You should choose this Standard if you frequently deal across a language divide. Do not choose this Standard if you come across customers who do not share your first language only occasionally.
