Promote continuous improvement

Overview

This Standard is part of the Customer Service Theme of Development and Improvement. This Theme covers activities and approaches that play a vital part in customer service by seeking and implementing improvements and developments. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

This Standard covers the key competence of the customer service professional. You must be dedicated to the continuous improvement of customer service and this involves organising changes in the way customer service is delivered over and over again. You need to identify potential changes, think through their consequences and make them work. Above all, this Standard covers the competence of organising and seeing through change that is sustainable and is in the spirit of continuous improvement in customer service.
