## Outsource business processes

---

### Overview

This unit is about outsourcing business processes which are not part of your organisation's core competencies.

It covers the outsourcing of discrete functions – such as payroll management, cleaning or security – as well as more complex processes, such as helpline provision, manufacturing or product assembly. It covers outsourced processes delivered on your premises (e.g. catering) and processes carried out at the vendor's premises (which may be in your country or in another country to take advantage of time zone differences, specialist expertise, tax concessions or low labour costs).

The unit is for those managers who have strategic responsibility for outsourcing non-core business processes for their organisation, or their part of the organisation.

This unit is linked to units:

E15 Procure supplies

E16 Select suppliers through a tendering process

F3 Manage business processes

F12 Improve organisational performance

F13 Manage quality systems

in the overall suite of National Occupational Standards for Management and Leadership.
