
Overview

This unit is about the activities involved within the sales cycle in matching products/services to customers' needs. It focuses upon face-to-face selling activity, and also applies to telephone contact. It includes generating sales leads, identifying customers' buying needs, promoting the features and benefits of relevant products/services, addressing queries/ objections and closing sales with mutually beneficial terms and conditions.

This unit is recommended for those involved in the selling of their organisation's products/services, but are not necessarily sales specialists. For example, such individuals might be 'general' managers within larger organisations, or managers and/or proprietors within small to medium-sized organisations.
