

COGN413

Carry out planned preventative maintenance procedures on equipment used in nuclear decommissioning

Overview

This unit covers the competence required to implement specified procedures for maintaining engineering plant and equipment in accordance with relevant maintenance schedules, in the specified sequence and in an agreed time scale.

This unit deals with the following:

1. Carry out planned preventative maintenance procedures on equipment used in nuclear decommissioning

During this work you must take account of the relevant worksite operational requirements, procedures and safe working practices AS THEY APPLY TO YOU.

Previous Version:

Adapted from Unit N413 of Nuclear Decommissioning NOS – version October 2005.

COGN413

Carry out planned preventative maintenance procedures on equipment used in nuclear decommissioning

Performance criteria

- You must be able to:*
- P1 work safely at all times, complying with health and safety and other relevant regulations and guidelines
 - P2 follow the relevant maintenance schedules to carry out the required work
 - P3 carry out the planned maintenance activities within the limits of your personal authority
 - P4 carry out the planned maintenance activities in the specified sequence and in an agreed time scale
 - P5 report any instances where the planned maintenance activities cannot be fully met or where there are identified defects outside the planned schedule
 - P6 complete relevant planned maintenance **records** accurately and pass them on to the appropriate person
 - P7 dispose of waste materials in accordance with safe working practices and approved procedures

Carry out planned preventative maintenance procedures on equipment used in nuclear decommissioning

Knowledge and understanding

You need to know and understand:

- K1 health and safety legislation, regulations and safe working practices and procedures
- K2 the maintenance schedules and related specifications
- K3 the maintenance methods and procedures
- K4 how to access and use the maintenance records and documentation procedures
- K5 equipment operating and care and control procedures
- K6 limits of authorisation and ability
- K7 reporting lines and procedures
