Ensure health and safety requirements are met in your area of responsibility

---

### Overview

This unit covers the competence required to manage the overall health and safety process in the area of the candidate. The unit is intended to go beyond meeting health and safety legislation and move towards a situation where health and safety considerations are firmly embedded in the planning and decision making processes and the `culture' of the candidate's area of responsibility.

This unit deals with the following:

1. Ensure health and safety requirements are met in your area of responsibility

During this work you must take account of the relevant worksite operational requirements, procedures and safe working practices AS THEY APPLY TO YOU.

#### **Previous Version:**

Adapted from Unit N424 of Nuclear Decommissioning NOS – version October 2005. This unit has been imported from the Management suite of NOS (reference E6).
