COSVR76

Apply solid plaster to complex internal surfaces

Overview

This standard is about interpreting information, adopting safe, healthy and environmentally responsible work practices, selecting and using materials, components, tools and equipment and applying solid plaster to complex internal surfaces

This standard is for people working in the occupational area of plastering and can be used by construction operatives, supervisors and managers.
Performance criteria

You must be able to:

P1 interpret the given information relating to the work and resources to confirm its relevance
P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
P3 select the required quantity and quality of resources for the methods of work
P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
P5 comply with the given contract information to carry out the work efficiently to the required specification
P6 complete the work within the allocated time, in accordance with the programme of work
COSVR76

Apply solid plaster to complex internal surfaces

Knowledge and understanding

You need to know and understand:

Performance Criteria 1

Interpretation of information
K1 the organisational procedures developed to report and rectify inappropriate information and unsuitable resources, and how they are implemented
K2 the types of information, their source and how they are interpreted
K3 the organisational procedures to solve problems with the information and why it is important they are followed

Performance Criteria 2

Safe work practices
K4 the level of understanding operatives must have of information for relevant, current legislation and official guidance and how it is applied
K5 how emergencies should be responded to and who should respond
K6 the organisational security procedures for tools, equipment and personal belongings
K7 what the accident reporting procedures are and who is responsible for making the report
K8 why, when and how health and safety control equipment should be used
K9 how to comply with environmentally responsible work practices to meet current legislation and official guidance

Performance Criteria 3

Selection of resources
K10 the characteristics, quality, uses, sustainability, limitations and defects associated with the resources and how defects should be rectified
K11 how the resources should be used and how any problems associated with the resources are reported
K12 the organisational procedures to select resources, why they have been developed and how they are used
K13 the hazards associated with the resources and methods of work and how they are overcome
Performance Criteria 4

**Minimise the risk of damage**
K14 how to **protect work** from damage and the purpose of protection
K15 why **disposal of waste** should be carried out safely and how it is achieved

Performance Criteria 5

**Meet the contract specification**
K16 how **methods of work**, to meet the specification, are carried out and **problems** reported
K17 how **maintenance** of tools and equipment is carried out

Performance Criteria 6

**Allocated time**
K18 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept
## COSVR76

**Apply solid plaster to complex internal surfaces**

### Scope/range

<table>
<thead>
<tr>
<th>Performance Criteria 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 interpretation of drawings, specifications, schedules, method statements, risk assessments and manufacturers' information related to the work to be carried out</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>

COSVR76

Apply solid plaster to complex internal surfaces

Performance Criteria 5

7 demonstration of work skills to plumb, measure, mark out, mix, apply and finish one-, two- and three-coat plaster
8 use and maintain hand tools, portable power tools and ancillary equipment
9 prepare background surfaces, mix plaster and apply internal solid plaster to at least six of the following to given working instructions
  9.1 internal and external angles other than 90°
  9.2 splayed walls
  9.3 round or arched windows
  9.4 round or square columns
  9.5 attached piers
  9.6 beams
  9.7 inclined walls or ceilings
  9.8 curved surfaces
  9.9 lath walls or ceilings
  9.10 expanded metal lath (EML)

Performance Criteria 6

10 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client
Scope/range related to knowledge and understanding

Disposal of waste
1 environmental responsibilities, organisational procedures, manufacturers’ information, statutory regulations and official guidance

Emergencies
2 operative’s response to situations in accordance with organisational authorisation and personal skills when involved with
2.1 fires, spillages, injuries
2.2 emergencies relating to occupational activities

Hazards
3 those identified by risk assessment, method of work, manufacturers’ technical information, statutory regulations and official guidance

Health and safety control equipment
4 identified by the principles of prevention for occupational use, types and purpose of each type, work situations and general work environment
4.1 collective protective measures
4.2 personal protective equipment (PPE)
4.3 respiratory protective equipment (RPE)
4.4 local exhaust ventilation (LEV)

Information
5 drawings, specifications, schedules, method statements, risk assessments, manufacturers’ information and current regulations governing buildings
Legislation and official guidance

6 this relates to the operative's responsibilities regarding potential accidents, health hazards and the environment whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting.

Maintenance

7 operative care of hand tools, portable power tools and ancillary equipment

Methods of work

8 application of knowledge for safe and healthy work practices, procedures and skills relating to the method/area of work and materials used to
8.1 prepare background surfaces
8.2 mix plaster
8.3 apply and finish one-, two- and three-coat plasterwork to splayed walls, round and arched windows, round and square columns, attached piers, beams, inclined walls and ceilings, curved surfaces, lath walls and ceilings and EML to solid backgrounds and board backgrounds
8.4 form internal and external angles other than 90°, reveals and expansion joints
8.5 recognise and determine when specialist skills and knowledge are required and report accordingly
8.6 understand specific requirements for structures of special interest, traditional build (pre 1919) and historical significance
8.7 use hand tools, portable power tools and ancillary equipment
8.8 work at height
8.9 use access equipment/working platforms
9 team work and communication
10 needs of other occupations associated with internal solid plastering
COSVR76

Apply solid plaster to complex internal surfaces

Problems

11 those arising from information, resources and methods of work
11.1 own authority to rectify
11.2 organisational reporting procedures

Programme

12 types of progress charts, timetables and estimated times
13 organisational procedures for reporting circumstances which will affect the work programme

Protect work

14 protect work against damage from general workplace activities, other occupations and adverse weather conditions

Resources

15 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist
15.1 backing coat and finishing plasters, sand, lime, cement and additives
15.2 beads and trims, scrim and tapes
15.3 expanded metal lath (EML), timber lath
15.4 clean water
15.5 hand tools, portable power tools and ancillary equipment
16 methods of calculating quantity, length, area and wastage associated with the method/procedure to apply solid plaster to complex internal surfaces

Security procedures

17 site, workplace, company and operative
