

Overview

This standard coexists alongside, **SKAHDBRBNST1 Implement and maintain safe, hygienic and effective working practices** and **SKAHDBRBNS1 Consult, assess, plan and prepare for Hair, Barbering, Beauty, Nails, Wellbeing and Holistic services**. This standard is about a hair professional applying temporary hair attachments to enhance a style by increasing volume and add colour. The ability to blend added hair into the existing style is required. You will also be required to do a post procedure evaluation and reflection for continuous improvement. Users of this standard will need to ensure that their practices reflect up-to-date information, policies, procedures and best practice guidance. It is advisable users of this standard are aware of, and comply with first aid requirements in accordance with legislation and organisational policies and procedures.

The main outcomes are:

1. Apply temporary hair attachments to enhance a style
2. Remove temporary hair attachments

Apply temporary hair attachments to enhance a style

4. future procedures

Anatomy and physiology

1. the structure and function of the hair and the hair growth cycle
2. the structure and function of the skin
3. basic anatomical structure of the head, neck and shoulders
4. relative and absolute contraindications and related pathologies

Glossary

Absolute contraindication

An absolute contraindication is a condition that prevents the service from being carried out and may require referral.

Adverse reaction

An adverse reaction is an 'unexpected' reaction or outcome following a service, i.e. fainting

Contra action

A contra-action is an 'expected' reaction or outcome following a service, i.e. erythema

Evidence-based practice

Evidence-based practice is based on the best available, current, valid and relevant evidence.

First aid

First aid can refer to first aid at work qualifications or equivalent and first aid mental health awareness.

Hair curl classification

Hair curl classification can be referred to as Type 1 – 4.

Protocol

A protocol is a standard procedure to ensure best practice and compliance when providing services, i.e. follow manufacturer instructions.

Relative contraindication

A relative contraindication is a condition that requires an assessment of suitability for the service and/or if adaptations are required.
