

Overview

This standard covers hand-processing fish or shellfish for sale to customers. It covers the preparations you need to make so that you can process fish or shellfish safely and hygienically and processing fish or shellfish by hand to produce products that are suitable to sell to customers. The standard involves working with common UK types of flat fish, round fish and shellfish.

You must be able to prepare to process fish or shellfish in a retail environment. You must also be able to process fish or shellfish using hand tools in a retail environment.

This standard is for you if you work in fish or shellfish processing and are involved in the processing in a retail environment.
