

Overview

This standard is about fixing wall and floor tiles to produce complex ceramic designs and surfaces, interpreting information, adopting safe, healthy and environmentally responsible work practices, selecting and using materials, components, tools and equipment

This standard is for people working in the occupational area of Wall and Floor Tiling and can be used by operatives, supervisors and managers

Performance criteria

- You must be able to:*
- P1 interpret the given information relating to the work and resources to confirm its relevance
 - P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
 - P3 select the required quantity and quality of resources for the methods of work
 - P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
 - P5 comply with the given contract information to carry out the work efficiently to the required specification
 - P6 complete the work within the allocated time, in accordance with the programme of work

Produce complex ceramic, mosaic and stone surface finishes

Knowledge and understanding

You need to know and understand: **Performance Criteria 1**

Interpretation of information

K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented

K2 the types of **information**, their source and how they are interpreted

K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

Performance Criteria 2

Safe work practices

K4 the level of understanding operatives must have of **information** for relevant, current **legislation and official guidance** and how it is applied

K5 the types of **fire extinguishers** and how and when they are used

K6 how **emergencies** should be responded to and who should respond

K7 the organisational **security procedures** for tools, equipment and personal belongings

K8 what the accident reporting procedures are and who is responsible for making the report

K9 why, when and how **health and safety control equipment** should be used

K10 how to comply with environmentally responsible work practices to meet current **legislation and official guidance**

Performance Criteria 3

Selection of resources

K11 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified

K12 how the **resources** should be used and how any **problems** associated with the **resources** are reported

K13 the organisational procedures to select **resources**, why they have been developed and how they are used

K14 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

Performance Criteria 4

Minimise the risk of damage

K15 how to **protect work** from damage and the purpose of protection

K16 why **disposal of waste** should be carried out safely and how it is achieved

Performance Criteria 5

Meet the contract specification

K17 how **methods of work**, to meet the specification, are carried out and **problems** reported

K18 how **maintenance** of tools and equipment is carried out

Performance Criteria 6

Allocated time

K19 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

Scope/range**Performance Criteria 1**

1 interpretation of drawings, specifications, work programmes, schedules, job details, method statements, risk assessments, Control of Substances Hazardous to Health (COSHH) assessments and manufacturers' information, including electronic information, related to the work to be carried out

Performance Criteria 2

2 avoidance of risk by complying with the given information relating to the following

2.1 methods of work

2.2 safe use of health and safety control equipment

2.3 safe use of access equipment

2.4 safe use, storage and handling of materials, tools and equipment

2.5 specific risks to health

Performance Criteria 3

3 selection of resources associated with own work

3.1 materials, components, fixings and accessories

3.2 tools and equipment

Performance Criteria 4

4 protection of the work and its surrounding area from damage

5 maintain a clear and tidy work space

6 disposal of waste in accordance with current legislation

Performance Criteria 5

7 demonstration of work skills to measure, set out, cut, apply, position, secure and finish

8 use and maintain hand tools, portable power tools and associated equipment

9 mix and apply materials

10 fix tiles to complex surfaces, using two types from ceramic, mosaics and natural stone, to given working instructions for:

10.1 arches, reveals, cills and soffitts (door and/or windows)

10.2 staircase and landing

11 fix tiles to complex designs using two types from ceramic, mosaics and natural stone, to given working instruction for:

11.1 at least two from patterns, motifs, curves and circles

Performance Criteria 6

10 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

Produce complex ceramic, mosaic and stone surface finishes

**Scope/range related
to knowledge and
understanding**

Disposal of waste

1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

Emergencies

2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with

2.1 fires, spillages, injuries

2.2 emergencies relating to occupational activities

Fire extinguishers

3 water, CO₂, foam, powder and their uses

Hazards

4 those identified by risk assessment, methods of work, manufacturers' technical information, statutory regulations and official guidance

Health and safety control equipment

5 identified by the principles of prevention for occupational use, types and purpose of each type, work situations and general work environment

5.1 collective protective measures

5.2 personal protective equipment (PPE)

5.3 respiratory protective equipment (RPE)

5.4 local exhaust ventilation (LEV)

Information

6 drawings, specifications, work programmes, schedules, job details, method statements, risk assessments, COSHH assessments, manufacturers' information, Codes of Practice and official guidance

Legislation and official guidance

7 this relates to the operative's responsibilities regarding potential accidents, health hazards and the environment whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement and storage of materials by manual handling and mechanical lifting

Maintenance

8 operative care of hand tools, portable power tools and associated equipment

Methods of work

9 application of knowledge for safe and healthy work practices, procedures and skills relating to the method and area of work and materials used to

9.1 prepare, fix and finish wall and floor tiles, ceramic, mosaics and natural stone to various complex surfaces, including staircase and landing (new and repair work)

9.2 prepare, fix and finish wall and floor tiles, ceramic, mosaics and natural stone to complex designs

9.3 set out designs with curves, circles, ellipses, obtuse and acute angles

9.4 form reveals, cills and soffits (door and window openings)

9.5 fix tiles using cement and sand beds

9.6 fix profile trims

9.7 locate and install movement joints

9.8 provide information for Building Information Modelling (BIM)

9.9 recognise and determine when specialist skills and knowledge are required and report accordingly

9.10 determine specific requirements for structures of special interest, traditional build (pre 1919) and historical significance

9.11 identify and follow the installation requirements necessary to achieve relevant quality standards

9.12 work with, around and in close proximity to plant and machinery

9.13 direct and guide the operations and movement of plant and machinery

Produce complex ceramic, mosaic and stone surface finishes

- 9.14 use hand tools, portable power tools and associated equipment
- 9.15 work at height
- 9.16 use access equipment
- 10 team work and communication
- 11 needs of other occupations associated with producing complex ceramic, mosaic and stone surface finishes

Problems

- 12 those arising from information, resources and methods of work
- 12.1 own authority to rectify
- 12.2 organisational reporting procedures

Programme

- 13 types of progress charts, timetables and estimated times
- 14 organisational procedures for reporting circumstances which will affect the work programme

Protect work

- 15 protect work against damage from general workplace activities, other occupations and adverse weather conditions

Resources

- 16 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist
- 16.1 wall and floor tiles, mosaics, natural stone, grouts, adhesives, surface treatments, profile trims, movement joints, accessories
- 16.2 fittings and fixings
- 16.3 hand tools, portable power tools and associated equipment
- 17 confirm resources and materials conform with the specification
- 18 methods of calculating quantity, length, area and wastage associated with the method and procedure to produce complex ceramic, mosaic and stone surface finishes

Security procedures

- 19 site, workplace, company, operative and vehicles

Produce complex ceramic, mosaic and stone surface finishes

Developed by Construction Skills
