

Overview

This standard is about producing setting out rods and marking out plain and circular bespoke products for one or more of the following groups: architectural joinery; wheelwrighting (carriage construction); shopfitting products (timber, timber based products and/or composite materials and/or metal), interpreting information, adopting safe, healthy and environmentally responsible work practices, and selecting and using materials, components, tools and equipment

This standard is for people working in the occupational area of Wood Occupations and can be used by operatives, supervisors and managers

Performance criteria

- You must be able to:*
- P1 interpret the given information relating to the work and resources to confirm its relevance
 - P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
 - P3 select the required quantity and quality of resources for the methods of work
 - P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
 - P5 comply with the given contract information to carry out the work efficiently to the required specification
 - P6 complete the work within the allocated time, in accordance with the programme of work

Produce setting out details for bespoke products

Knowledge and understanding

You need to know and understand: **Performance Criteria 1**

Interpretation of information

K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented

K2 the types of **information**, their source and how they are interpreted

K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

Performance Criteria 2

Safe work practices

K4 the level of understanding operatives must have of **information** for relevant, current **legislation and official guidance** and how it is applied

K5 the types of **fire extinguishers** and how and when they are used

K6 how **emergencies** should be responded to and who should respond

K7 the organisational **security procedures** for tools, equipment and personal belongings

K8 what the accident reporting procedures are and who is responsible for making the report

K9 why, when and how **health and safety control equipment** should be used

K10 how to comply with environmentally responsible work practices to meet current **legislation and official guidance**

Performance Criteria 3

Selection of resources

K11 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified

K12 how the **resources** should be used and how any **problems** associated with the **resources** are reported

K13 the organisational procedures to select **resources**, why they have been developed and how they are used

K14 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

Performance Criteria 4

Minimise the risk of damage

K15 how to **protect work** from damage and the purpose of protection

K16 why **disposal of waste** should be carried out safely and how it is achieved

Performance Criteria 5

Meet the contract specification

K17 how **methods of work**, to meet the specification, are carried out and **problems** reported

K18 how **maintenance** of tools and equipment is carried out

Performance Criteria 6

Allocated time

K19 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

Scope/range**Performance Criteria 1**

1 interpretation of drawings, specifications, schedules, method statements, risk assessments, cutting lists and manufacturers' information related to the work to be carried out

Performance Criteria 2

2 avoidance of risk by complying with the given information relating to at least four of the following

2.1 methods of work

2.2 safe use of health and safety control equipment

2.3 safe use of access equipment

2.4 safe use, storage and handling of materials, tools and equipment

2.5 specific risks to health

Performance Criteria 3

3 selection of resources associated with own work

3.1 materials, components and fixings

3.2 tools and equipment

Performance Criteria 4

4 protection of the work and its surrounding area from damage

5 maintain a clear and tidy work space

6 disposal of waste in accordance with current legislation

Performance Criteria 5

7 demonstration of work skills to measure, mark out and draw
8 use and maintain hand marking and testing tools, and power tools
9 produce setting out details, marking out and cutting lists for bespoke products to given working instructions for one of the following groups
9.1 architectural joinery group (at least three items from the following): door sets, doors, open windows, units and/or fitments, panelling and/or cladding, staircases (straight and with turns), handrails and balustrading, joinery products incorporating any of the following – glass, metal, fabrics, veneers, laminates, joinery products with single curvature features, joinery products with double curvature features
9.2 wheelwrighting group (carriage construction): wheels plus at least two items from the following – doors, frames, wooden framed vehicles, shafts, steps, wooden framed vehicles with single curvature features, wooden framed vehicles with double curvature features
9.3 shopfitting products group (timber, timber based products and/or composite materials and/or metal) at least three items from the following: doors, frames and linings, shopfront sashes, including associated elements, units and fitments, framed panelling and/or cladding, products incorporating any of the following – glass, fabrics, veneers; staircases (straight and with turns), handrails and balustrades, shopfitting products with single curvature features, shopfitting products with double curvature features, soffits and bulkheads

Performance Criteria 6

10 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

Produce setting out details for bespoke products

**Scope/range related
to knowledge and
understanding**

Disposal of waste

1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

Emergencies

2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with

2.1 fires, spillages, injuries

2.2 emergencies relating to occupational activities

Fire extinguishers

3 water, CO₂, foam, powder and their uses

Hazards

4 those identified by risk assessment, methods of work, manufacturers' technical information, statutory regulations and official guidance

Health and safety control equipment

5 identified by the principles of prevention for occupational use, types and purpose of each type, work situations and general work environment

5.1 collective protective measures

5.2 personal protective equipment (PPE)

5.3 respiratory protective equipment (RPE)

5.4 local exhaust ventilation (LEV)

Information

6 drawings, specifications, schedules, method statements, risk assessments, manufacturers' information, oral and written instructions, sketches, electronic data, official guidance (animal welfare), component standards and current regulations governing buildings associated with producing setting out details for bespoke products

Legislation and official guidance

7 this relates to the operative's responsibilities regarding potential accidents, health hazards and the environment whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement and storage of materials by manual handling and mechanical lifting

Maintenance

8 operative care of hand and power tools

Methods of work

9 application of knowledge for safe and healthy work practices, procedures and skills relating to the method and area of work and materials used to

- 9.1 set out, mark out and produce cutting lists for bespoke products
- 9.2 produce straight in plan and elevation; door sets, doors, sliding sash windows, units and fittings, panelling and cladding
- 9.3 wooden framed vehicles, shafts and wheels (wheelwrighting only)
- 9.4 produce staircases, handrails and balustrades, straight and with turns
- 9.5 produce products with single and double curvature features by geometrical development relating to the above items
- 9.6 take site and workplace dimensions
- 9.7 proportion joints associated with the product and construction methods
- 9.8 requisition material
- 9.9 recognise and determine when specialist skills and knowledge are required and report accordingly
- 9.10 determine specific requirements for structures of special interest, traditional build (pre 1919) and historical significance
- 9.11 identify and follow the installation quality requirements
- 9.12 work with, around and in close proximity to plant and machine
- 9.13 use hand, marking and testing tools, and power tools
- 9.14 requisition material
- 9.15 work at height
- 9.16 use access equipment
- 10 team work and communication

Produce setting out details for bespoke products

11 needs of other occupations associated with producing setting out details for bespoke products

Problems

12 those arising from information, resources and methods of work

12.1 own authority to rectify

12.2 organisational reporting procedures

Programme

13 types of productivity targets and time scales

14 how times are estimated

15 organisational procedures for reporting circumstances which will affect the work programme

Protect work

16 protect work against damage from general workplace activities, other occupations and adverse weather conditions

Resources

17 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist

17.1 timber, timber based products, composite materials, paper rods, glass, plastic, fabric, metal, ironmongery and adhesives

17.2 fittings and fixings

17.3 marking and testing tools, hand and power tools

18 confirm resources and materials conform with the specification including suitability, moisture and durability

19 methods of calculating quantity, length, area and wastage associated with the method and procedure to produce setting out details for bespoke products

Security procedures

20 site, workplace, company, operative and vehicles

Produce setting out details for bespoke products
