
Overview

This standard is about contributing to health and safety in the Tram and Tramway environment by making sure you comply with the relevant healthy and safe working practices, including safe systems of work. You will also understand your own role and responsibilities in relation to health and safety as well as those of your organisation. You will understand how to keep your work environment safe and the procedures to follow if a breach in health and safety is suspected or has occurred. It is also about understanding the ways in which you can contribute to health and safety and the policies and procedures which ensure a safe and healthy work environment. This standard is for those who work in the Tram and Tramway environment.

Performance criteria

You must be able to:

-
- 1 confirm the work environment is, as far as possible, free from **hazards**
 - 2 warn others when hazardous situations arise
 - 3 adhere to **safe systems of work** when on or near a Tram vehicle or Tramway environment
 - 4 comply with relevant **legal and organisational procedures and requirements** relating to health and safety in the Tram and Tramway environment
 - 5 report any breaches to health and safety to the relevant person(s)
 - 6 complete the required documents and process them in line with your organisation's procedures
