

Overview

This Standard is about incorporating end-user interfaces and pathways in products that enable end-users to navigate content. Products could include DVDs, Blu Rays and so on. This is about incorporating interactive material that has been developed by specialists rather than developing it. This Standard should apply to anyone who is involved with incorporating interactive media in products.

Performance criteria

You must be able to:

1.
identify solutions that allow projects to be fully exploited commercially
 - 1.1
ensure that material can be incorporated within time and budget
 - 1.2
incorporate interactive media within a coherent, agreed product
