

Overview

This Standard is about your ability to work effectively, safely and legally in a workshop environment. It will involve creating or upholding a safe workshop space that may be permanent or temporary, and maintaining the health and safety of yourself and the crew you work with at all times. It also involves ensuring that the space is clean, organised and well managed in order to execute your work. This could also include setting up a dry hire space to be able to deliver the necessary work in an effective manner, including cleaning up and returning the area to its previous state. It assumes you have a knowledge and experience of working collaboratively as part of a team. This Standard is for you if you work in a workshop environment.

Performance criteria

You must be able to:

1.
ensure that workshop space is secure and inaccessible to
unauthorised people at all times within your level of authority
 - 1.1 ensure that the working environment is safe and compliant with

Work in a safe and effective way in a workshop

Knowledge and understanding

You need to know and understand:

1.
the importance of being familiar with the equipment you have, or
are taking into, the work area
 - 1.1 the parameters of your role in the working environment and the
