

Overview

"This standard is about applying water-borne and/or solvent-borne coatings by brush and/or roller in industrial and/or non-industrial situations, providing protection to the work area, interpreting information, adopting safe, healthy and environmentally responsible work practices, selecting and using materials, components, tools and equipment

This standard is for people working in the occupational area of Decorative Finishing and Industrial Painting Occupations and can be used by operatives, supervisors and managers"

Performance criteria

You must be able to:

"P1 interpret the given information relating to the work and resources to confirm its relevance

P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices

P3 select the required quantity and quality of resources for the methods of work

P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area

P5 comply with the given contract information to carry out the work efficiently to the required specification

P6 complete the work within the allocated time, in accordance with the programme of work"

Knowledge and understanding

You need to know and understand:

Performance Criteria 1

Interpretation of information

K1 the organisational procedures developed to report and rectify inappropriate information and unsuitable resources, and how they are implemented

K2 the types of information, their source and how they are interpreted

K3 the organisational procedures to solve problems with the information and why it is important they are followed

Performance Criteria 2

Safe work practices

K4 the level of understanding operatives must have of information for relevant, current legislation and official guidance and how it is applied

K5 the types of fire extinguishers and how and when they are used

K6 how emergencies should be responded to and who should respond

K7 the organisational security procedures for tools, equipment and personal belongings

K8 what the accident reporting procedures are and who is responsible for making the report

K9 why, when and how health and safety control equipment should be used

K10 how to comply with environmentally responsible work practices to meet current legislation and official guidance

Performance Criteria 3

Selection of resources

K11 the characteristics, quality, uses, sustainability, limitations and defects associated with the resources and how defects should be rectified

K12 how the resources should be used and how any problems associated with the resources are reported

K13 the organisational procedures to select resources, why they have been developed and how they are used

K14 the hazards associated with the resources and methods of work and how they are overcome

Performance Criteria 4

Minimise the risk of damage

K15 how to protect work from damage and the purpose of protection

Apply surface coatings by brush and roller LEGACY

K16 why disposal of waste should be carried out safely and how it is achieved

Performance Criteria 5

Meet the contract specification

K17 how methods of work, to meet the specification, are carried out and problems reported

K18 how maintenance of tools and equipment is carried out

Performance Criteria 6

Allocated time

K19 what the programme is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

Scope/range

Performance Criteria 1

1 interpretation of drawings, specifications, current regulations, schedules, risk assessments, method statements and manufacturers' information related to the work to be carried out.

Performance Criteria 2

2 avoidance of risk by complying with the given information relating to all of the following: 2.1 methods of work 2.2 safe use of health and safety control equipment 2.3 safe use of access equipment 2.4 safe use, storage and handling of materials, tools and equipment 2.5 specific risks to health

Performance Criteria 3

3 selection of resources associated with own work: 3.1 materials, components and fixings 3.2 tools and equipment

Performance Criteria 4

4 protection of the work and its surrounding area from damage 5 maintain a clear and tidy work space 6 disposal of waste in accordance with current legislation

Performance Criteria 5

7 demonstration of work skills to match, mix, pour, dilute, load, lay-on, lay-off and cut-in 8 use and maintain hand and power tools and associated equipment 9 apply water-borne and/or solvent-borne coatings to internal and/or external surfaces for industrial and/or non-industrial situations, to given working instructions for trim, broad areas and structural and architectural work by brush and/or roller

Performance Criteria 6

10 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

Scope/range related to knowledge and understanding

Disposal of waste

1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

Emergencies

2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with: 2.1 fires, spillages, injuries 2.2 emergencies relating to occupational activities

Fire extinguishers

3 water, CO₂, foam and powder

Hazards

4 identify by risk assessments, method statements, manufacturers' technical information, statutory regulations and official guidance

Health and safety control equipment

5 identified by the principles of prevention for occupational use, types and purpose of each type, work situations and general work environment: 5.1 collective protective measures 5.2 personal protective equipment (PPE) 5.3 respiratory protective equipment (RPE) 5.4 local exhaust ventilation (LEV)

Information

6 drawings, specifications, current legislation, schedules, risk assessments, method statements, manufacturers' information, official guidance and current regulations governing buildings associated with occupational requirements

Legislation and official guidance

7 this relates to the operative's responsibilities regarding potential accidents, health hazards, people, and the environment whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement and storage of materials by manual handling and mechanical lifting

Maintenance

8 operative care of brushes, rollers, and associated tools and equipment

Methods of work

9 application of knowledge for safe and healthy work practices, procedures and skills relating to the method and area of work and materials used to: 9.1 establish access requirements 9.2 check suitability of previously decorated or prepared surfaces 9.3 prepare and apply water-borne, solvent-borne and two-pack coatings by brush and

Apply surface coatings by brush and roller LEGACY

roller 9.4 coat broad areas and structural and/or architectural features 9.5 stripe-coat surface features (industrial environment) 9.6 test wet and dry film thickness 9.7 identify how atmospheric conditions affect coatings and their application process 9.8 identify the working and pot life of materials prepared for use 9.9 provide information for Building Information Modelling (BIM) 9.10 recognise and determine when specialist skills and knowledge are required and report accordingly 9.11 identify and follow manufacturers' instructions 9.12 work around and in close proximity to plant and machinery 9.13 direct and guide the operations and movement of plant and machinery 9.14 work at height 9.15 inspect and use access equipment 9.16 use appropriate brushes, rollers and associated tools and equipment

10 team work and communication 11 needs of other occupations associated with applying surface coatings systems by brush and roller and members of the public who may be affected

Problems

12 those arising from information, resources and methods of work: 12.1 own authority to rectify 12.2 organisational reporting procedures

Programme

13 types of progress charts, timetables and estimated times 14 organisational procedures for reporting circumstances which will affect the work programme

Protect work

15 protect work against damage from general workplace activities, other occupations, members of the public and adverse weather conditions

Resources

16 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist: 16.1 water-borne and solvent-borne coatings 16.2 primers, sealers, intermediate coatings (undercoats) and finishes (single- and two-pack coatings) 16.3 single-product systems (e.g. emulsions, varnishes, timber preservative treatments) 16.4 specialist coatings 16.5 solvents and/or thinners 16.6 appropriate brushes, rollers and other associated equipment 16.7 protective sheeting and masking materials 16.8 plant and access equipment 16.9 hand tools and associated equipment

17 methods of calculating quantity, including wastage of materials required associated with the method and procedure to apply surface coatings by brush and roller 18 confirm resources and materials conform with the specification

Security procedures

19 site, workplace, company, operative and vehicles

Apply surface coatings by brush and roller LEGACY
