## Overview

This standard is about updating your own knowledge, as an enterprise and entrepreneurship educator, through collaboration with others. It requires you to review your own strengths and areas for development in knowledge of enterprise and entrepreneurship education, reflect on the knowledge required to develop and deliver enterprise and entrepreneurship education curricula and identify how working with others can assist in addressing areas for development.

For the purposes of this standard, enterprise and entrepreneurship education refers to the process of equipping learners with an enhanced capacity, ideas and skills to make ideas happen, whether it is in the context of starting and running a business or working for someone else. Enterprise refers to a set of personal abilities, skills and behaviours which can be used in a variety of different contexts whilst entrepreneurship refers to an individual or group of individuals creating, developing and managing a new venture. Institution refers to the organisation you work in, whether this is a school, further education college, higher education institution or private training provider.

This standard is recommended for individuals involved in the design, development and delivery of enterprise and entrepreneurship education curricula in schools, colleges, higher education institutions and other education contexts.

---

## Performance criteria

### *You must be able to:*

P1 use available frameworks and tools, internal and/or external to the institution, to review strengths and gaps in your knowledge as an enterprise and entrepreneurship educator

P2 review the usefulness of available sources of advice and guidance to:

P2.1 build upon strengths and address gaps in knowledge as an enterprise and entrepreneurship educator  
P2.2 address any gaps in knowledge as an enterprise and entrepreneurship educator

P3 develop strategies to review strengths and gaps in your own knowledge, on an ongoing basis, as an enterprise and entrepreneurship educator

P4 assess how others in the institution can assist in addressing gaps in your knowledge as an enterprise and entrepreneurship educator

P5 identify how working with others external to the institution can assist in addressing gaps in your knowledge as an enterprise and entrepreneurship educator

P6 use feedback from others, internal and external to the institution, to review strengths and gaps in your knowledge as an enterprise and entrepreneurship educator

---

## Knowledge and understanding

*You need to know and understand:*

*\*Review own strengths and areas for development in knowledge*

\*
