
Overview

This standard is about interpreting information, adopting safe, healthy and environmentally responsible work practices, selecting and using materials, components and tools, preparing, setting up, completing pre-use checks and operating plant, machinery or equipment for pavement marking

This standard is for people working independently or as part of a team in the occupational area of pavement construction and maintenance and can be used by operatives, technicians, supervisors and managers

Performance criteria

You must be able to:

- P1 interpret the given operating information relating to the use of plant or machinery and confirm its relevance
- P2 organise with others the sequence in which the work is to be carried out
- P3 comply with the relevant, current legislation, special legal status documents, official guidance and organisational procedures to maintain safe and healthy work practices
- P4 request resources to sustain plant or machinery operations to complete the programme of work
- P5 select plant or machinery resources for the methods of work and operations to be carried out
- P6 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
- P7 comply with the given contract information to carry out the work efficiently to the required specification
- P8 complete the work within the allocated time, in accordance with the programme of work

Knowledge and understanding

You need to know and understand:

Performance Criteria 1

*

*Interpretation of information**

K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented

K2 the types of **information**, their source and how they are interpreted

K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

*

*Performance Criteria 2**

*

*Organise with others**

K4 **communication** of ideas between team members

K5 organisation of **resources** in conjunction with the progress of work

K6 the **skills** required to carry out the work

*

*Performance Criteria 3**

*

*Safe work practices**

K7 the level of understanding operatives must have of **information** for relevant, current **legislation, Approved Codes of Practice and official guidance** and how it is applied

K8 the types of **fire extinguishers** and how and when they are used

K9 how **emergencies** should be responded to and who should respond

K10 the organisational **security procedures** for plant and/or machinery, tools, equipment and personal belongings

K11 what the accident reporting procedures are and who is responsible for making the report

K12 why, when and how **health and safety control equipment** should be used

K13 how to comply with environmentally responsible work practices to meet the requirements of current **legislation and official guidance**

**

Performance Criteria 4*

*

*Request resources***

K14 the organisational procedures for requisitioning consumables and other **resources**

*

*Performance Criteria 5**

*

*Selection of resources**

K15 the characteristics, quality, uses, sustainability, limitations and defects associated with plant **resources** and how defects should be rectified

K16 how the **resources** should be used and how any **problems** associated with the **resources** are reported

K17 the organisational procedures to select **resources**, why they have been developed and how they are used

K18 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

*

*Performance Criteria 6**

*

*Minimise the risk of damage**

K19 how to **protect work** from damage and the purpose of protection

K20 why **disposal of waste** should be carried out safely and how it is achieved

*

*Performance Criteria 7**

*

*Meet the contract specification**

K21 how **methods of work**, to meet the specification, are carried out and **problems** reported

K22 how **maintenance** of plant and/or machinery, tools and equipment is carried out

**

*Performance Criteria 8**

*

*Allocated time***

K23 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

Scope/range

Performance Criteria 1

1 interpretation of drawings, specifications, schedules, method statements, risk assessments and manufacturers' information related to the plant, machinery or equipment operations and the work to be carried out

Performance Criteria 2

2 organisation of own work
3 communication with team members and other associated occupations about the plant, machinery or equipment operations and the work to be carried out

Performance Criteria 3

4 avoidance of risk by complying with the given safety information relating to the following
4.1 methods of work
4.2 safe use of health and safety control equipment
4.3 safe use, storage and handling of plant, machinery, equipment and tools
4.4 safe use, storage and handling of materials
4.5 specific risks to health

Performance Criteria 4

5 follow organisational procedures for the requisition of consumables, materials and other resources

Performance Criteria 5

6 selection of resources associated with own work
6.1 tools and ancillary equipment and/or accessories

Performance Criteria 6

7 protection of the work and its surrounding area from damage
8 maintain a clear and tidy work space
9 disposal of waste in accordance with current legislation

Performance Criteria 7

-
- 10 demonstration of work skills to check, set up, adjust, align, communicate, operate, control, secure and lay
 - 11 use and maintain hand tools, ancillary equipment and/or accessories
 - 12 prepare, operate, or control the operations of at least one of the following items of plant, machinery or equipment for at least one of the following to given working instructions
 - 12.1 applicator steersman reacting to signals to maintain speed, direction and line
 - 12.2 applicator operator maintaining feed, flow, coverage, quantity and thickness of materials and communicating with steersman
 - 12.3 feeder vehicle operator supplying materials to the applicator
 - 13 shut down and secure plant, machinery or equipment

Performance Criteria 8

- 14 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

Scope/range related to knowledge and understanding

Communication

- 1 discussions, sketches, electronic information and briefings

Disposal of waste

- 2 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

Emergencies

- 3 operative's response to situations in accordance with organisational authorisation and personal skills when involved with
 - 3.1 fires, spillages, injuries
 - 3.2 emergencies relating to occupational activities

Fire extinguishers

- 4 water, CO₂, foam, powder and their uses

Hazards

- 5 those identified by methods of work, risk and Control of Substances Hazardous to Health (COSHH) assessments, manufacturers' technical information, statutory regulations and official guidance

Health and safety control equipment

- 6 identified by the principles of prevention for occupational use, types and purpose of each type, work situations and general work environment
 - 6.1 collective protective measures
 - 6.2 personal protective equipment (PPE)
 - 6.3 respiratory protective equipment (RPE)

Information

- 7 drawings, specifications, schedules, method statements, risk assessments, manufacturers' information, verbal, written and graphical instructions, current regulations and official guidance governing the operation of plant, machinery and equipment for pavement marking

Legislation, Approved Codes of Practice and official guidance

8 this relates to the operative's responsibilities regarding potential accidents, health hazards and the environment whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement and storage of materials by manual handling and mechanical lifting

Maintenance

9 operative care of plant or machinery, hand tools, ancillary equipment and/or accessories

Methods of work

10 application of knowledge for safe and healthy work practices, procedures and skills relating to the method and area of work and materials used to

10.1 identify installation requirements

10.2 conform to agreed specifications

10.3 confirm the area and location of work, the operations, safety and security requirements including temporary traffic management and immediate area protection

10.4 ensure clean and dry surfaces for pavement marking application

10.5 identify types of pavement marking materials; spray, rib, extrusion, cold applied systems and wet visibility

10.6 prepare, set up and carry out pre-start and running checks of the plant, machinery and equipment

10.7 check and monitor ambient conditions and adjust work in relation to prevailing weather conditions

10.8 recognise the test criteria for pavement marking materials

10.9 carry out and control operations according to your role and the required performance of plant, machinery and equipment

10.10 work around street furniture and ironwork

10.11 recognise the duties of other operators; applicator steersman, applicator operator and feeder vehicle operator to ensure cohesive operations

10.12 recognise, monitor and control processes e.g. preparation, line thickness and finishes

10.13 work around street furniture and ironwork

10.14 recognise and determine when specialist skills and knowledge are required and report accordingly

10.15 record and report, machine operation factors, work progress and completions

10.16 shut down and secure plant, machinery and equipment

10.17 use hand tools, ancillary equipment and accessories

11 team work and communication

12 needs of other occupations associated with operating plant, machinery and equipment for pavement marking

Problems

- 13 those arising from information, resources and methods of work
 - 13.1 own authority to rectify
 - 13.2 organisational reporting procedures

Programme

- 14 types of productivity targets and time scales
- 15 how times are estimated
- 16 organisational procedures for reporting circumstances which will affect the work programme

Protect work

- 17 protect work against damage from general workplace activities, other occupations and adverse weather conditions

Resources

- 18 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist
 - 18.1 consumables, lubricants and fuels
 - 18.2 attachments
 - 18.3 pavement marking materials
 - 18.4 hand tools, ancillary equipment and accessories
- 19 identify weight, pressure, quantity, length and area associated with the method and procedure to operate plant, machinery and equipment for pavement marking
- 20 how to confirm resources and materials conform with agreed specification

Security procedures

- 21 site, workplace, company and operative

Skills

- 22 own occupation and occupations related to the work

COSVR781

Operate and control operations of road plant, machinery or equipment for pavement marking

Developed by	Construction Skills
Version Number	1
Date Approved	29 Feb 2016
Indicative Review Date	29 Jan 2021
Validity	Current
Status	Original
Originating Organisation	ConstructionSkills
Original URN	COSVR781
Relevant Occupations	Construction Operatives, Road Construction Operatives
Suite	Road building and Maintenance
Keywords	Applicator steersman; Applicator operator; Feeder vehicle operator
